

Parents, did you know your child could receive **FREE** tutoring?

Your child may qualify for **FREE extra help in reading or math** if he or she

- Qualifies for free or reduced-priced lunch **and**
- Attends Miller School, a Title I school, that the state says is “in need of improvement” for 2 years or more

This free tutoring, called “Supplemental Educational Services” (or “SES”), is available before or after school, on weekends, or in the summer. If your child qualifies, you will be able to choose a tutoring provider that has been approved by your state.

To find out if your child can get free extra help to succeed in school, please contact:
